Bread of Angels is a memoir by Barbara Brown Taylor that explores the role of food in her life and faith. Taylor writes about her experiences with hunger, both physical and spiritual, and how food has been a source of both comfort and challenge. She also explores the role of food in the Bible and in the Christian tradition, and how it can be used to build community and foster compassion.

Taylor's writing is honest and insightful, and she does not shy away from the difficult questions. She writes about her own struggles with weight and body image, and how these struggles have shaped her relationship with food. She also writes about the challenges of feeding a family on a limited budget, and how she has learned to make do with what she has.

But Bread of Angels is not just a book about food. It is also a book about hope and redemption. Taylor writes about how food has helped her to find healing and wholeness in her own life, and how she has used food to reach out to others in need. She believes that food has the power to change lives, and she shares her stories in the hope that they will inspire others to use food to make a difference in the world.
