Print length : 32 pages

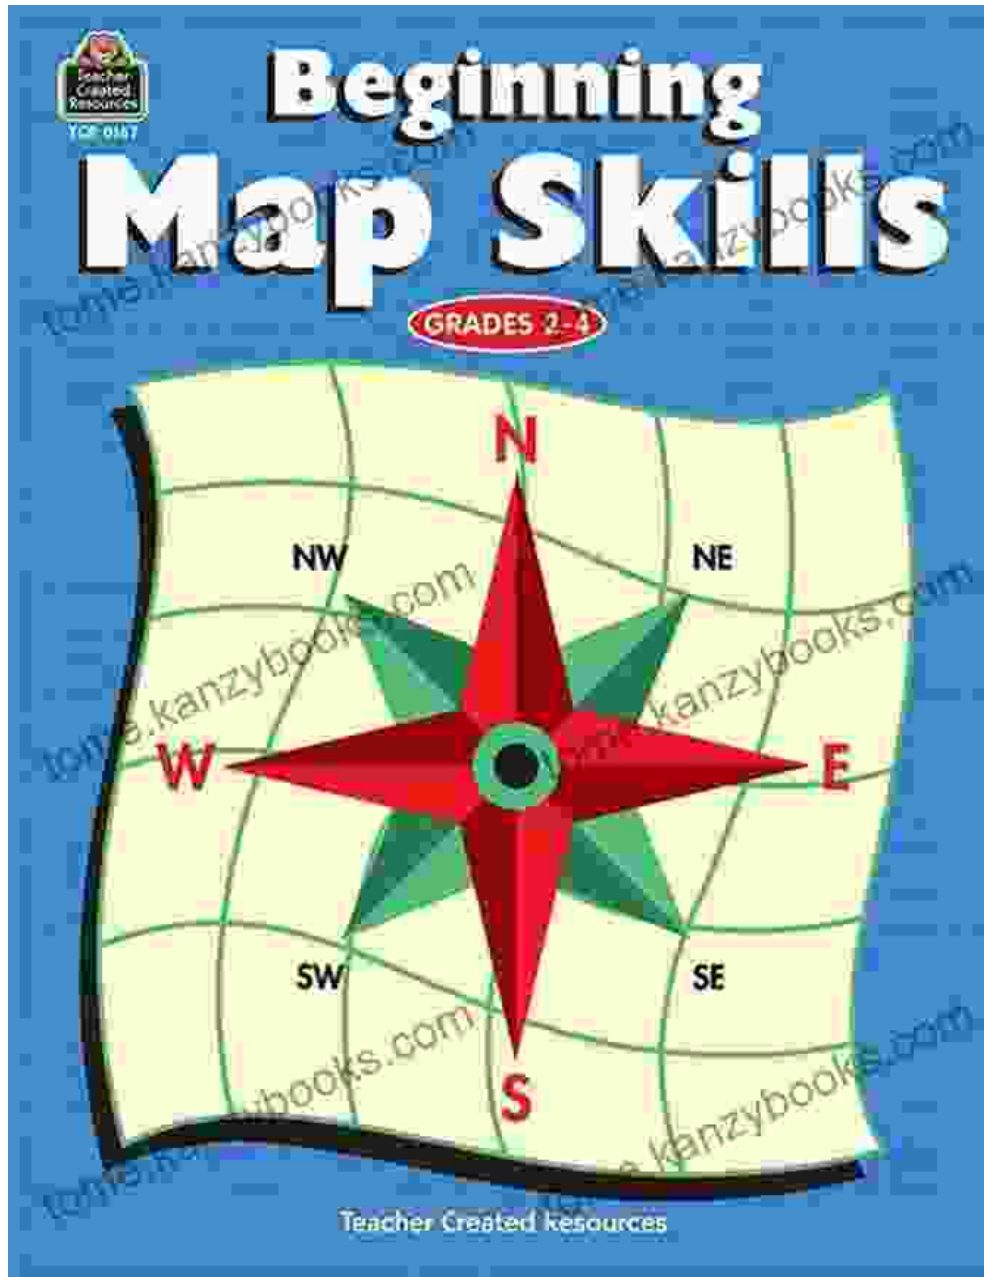

Are you looking for a fun and educational way to teach your second grader about geography? Look no further than our 2nd Grade Geography Series! This series of six books covers everything from the basics of map reading to the different continents and cultures of the world.

With engaging text, colorful illustrations, and fun activities, our books will make learning about geography a breeze for your child. Here's a brief overview of what each book in the series covers:

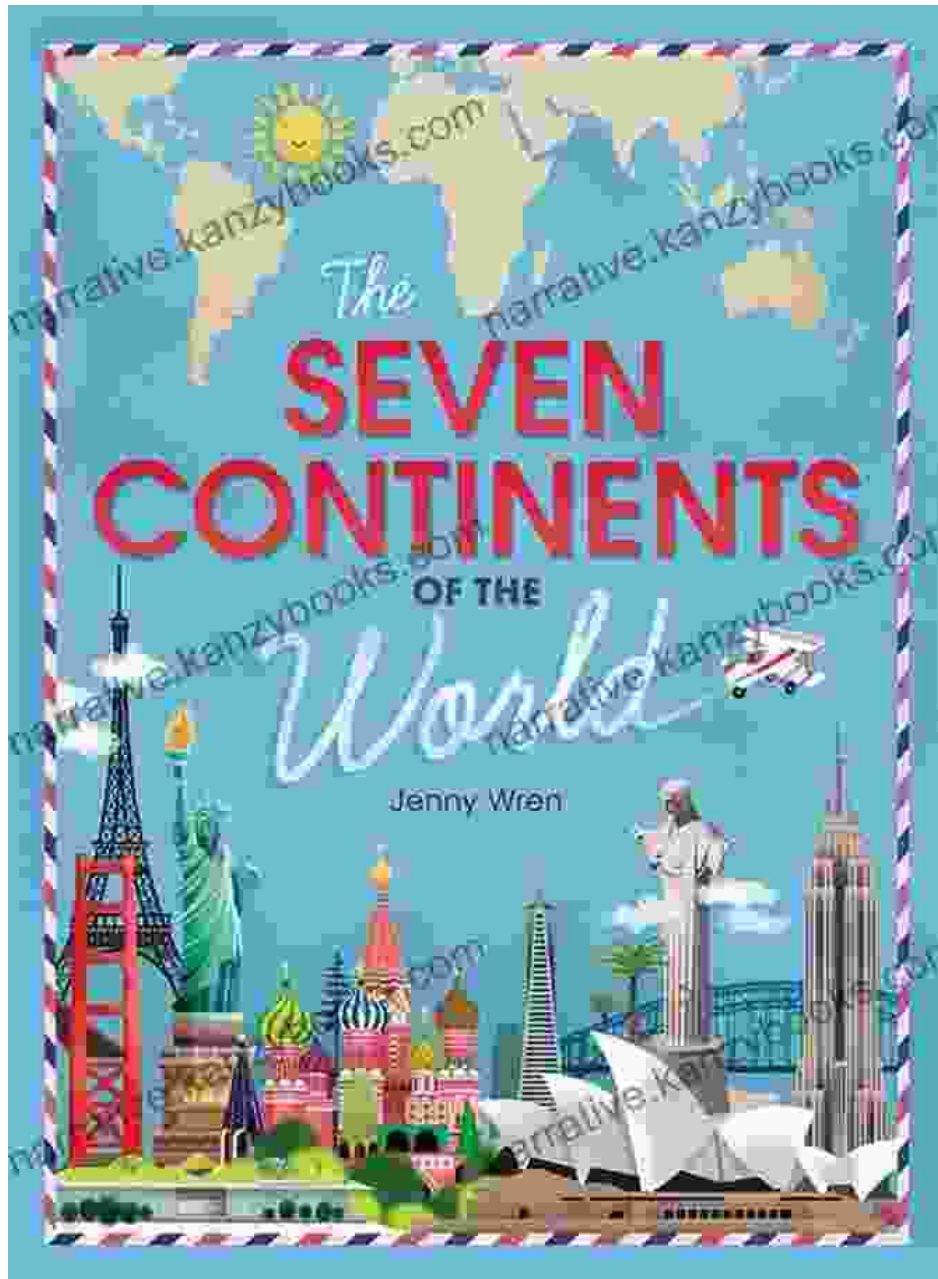

Book 1: Map Skills

This book introduces your child to the basics of map reading, including how to use a compass, read a scale, and identify different map symbols. They'll also learn about the different types of maps, such as physical maps, political maps, and topographic maps.

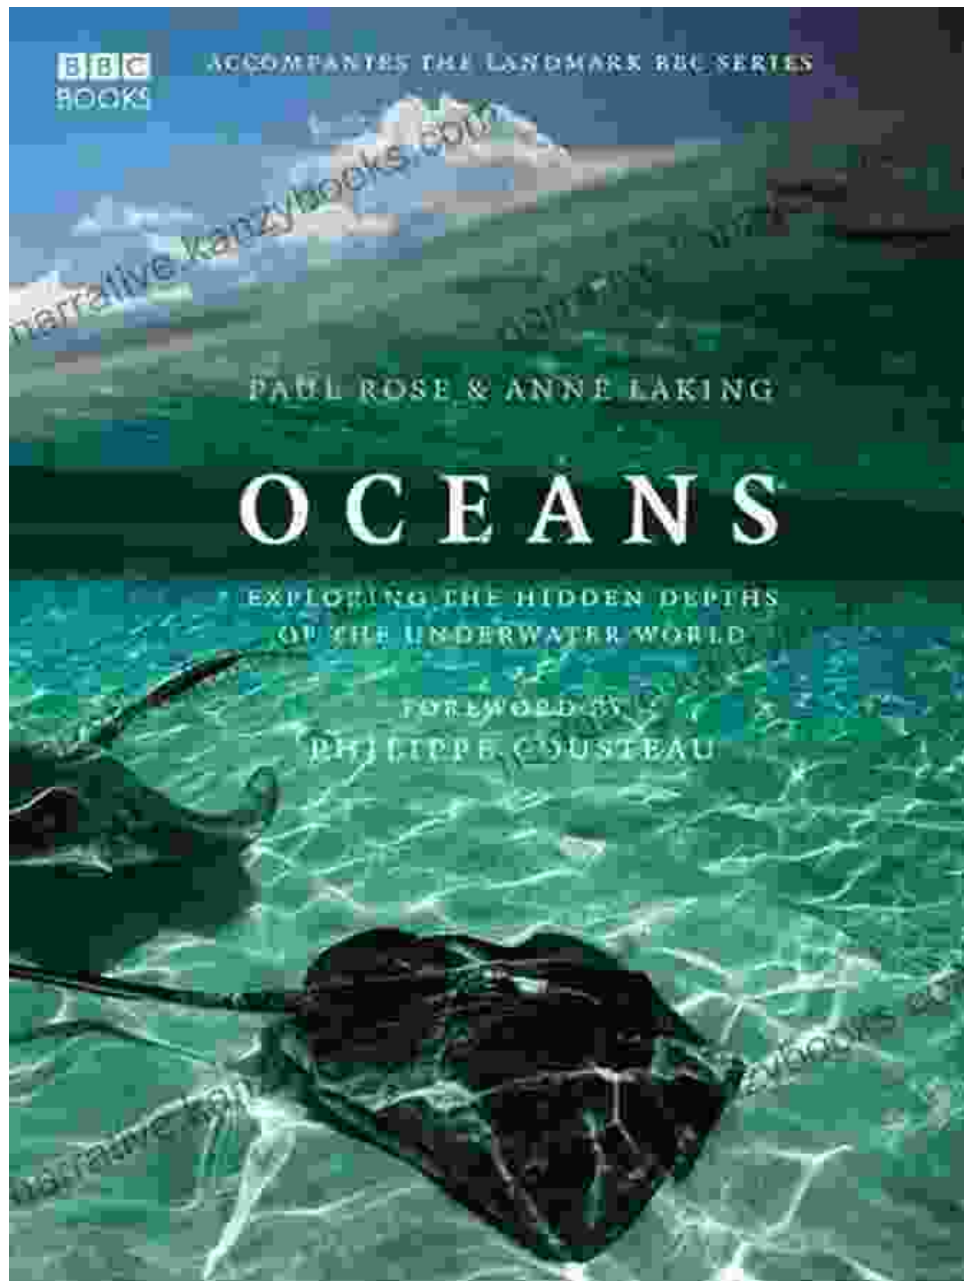

Book 2: The Continents

This book takes your child on a journey around the world, exploring each of the seven continents. They'll learn about the different countries, cultures, and landmarks found on each continent, as well as the unique physical features that make each continent special.

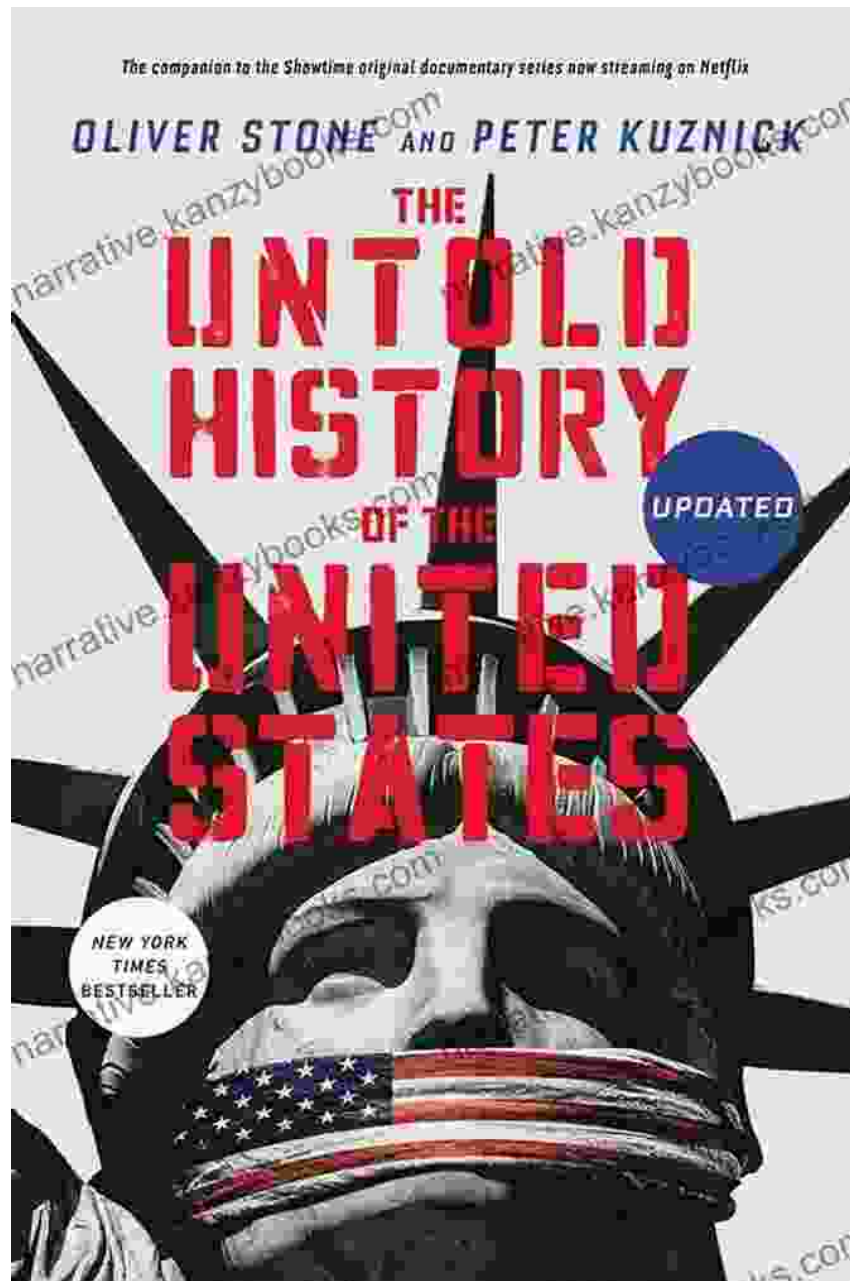

Book 3: The Oceans

This book dives deep into the world's oceans, teaching your child about the different types of oceans, ocean currents, and marine life. They'll also learn about the importance of oceans to the planet and the threats that oceans face.

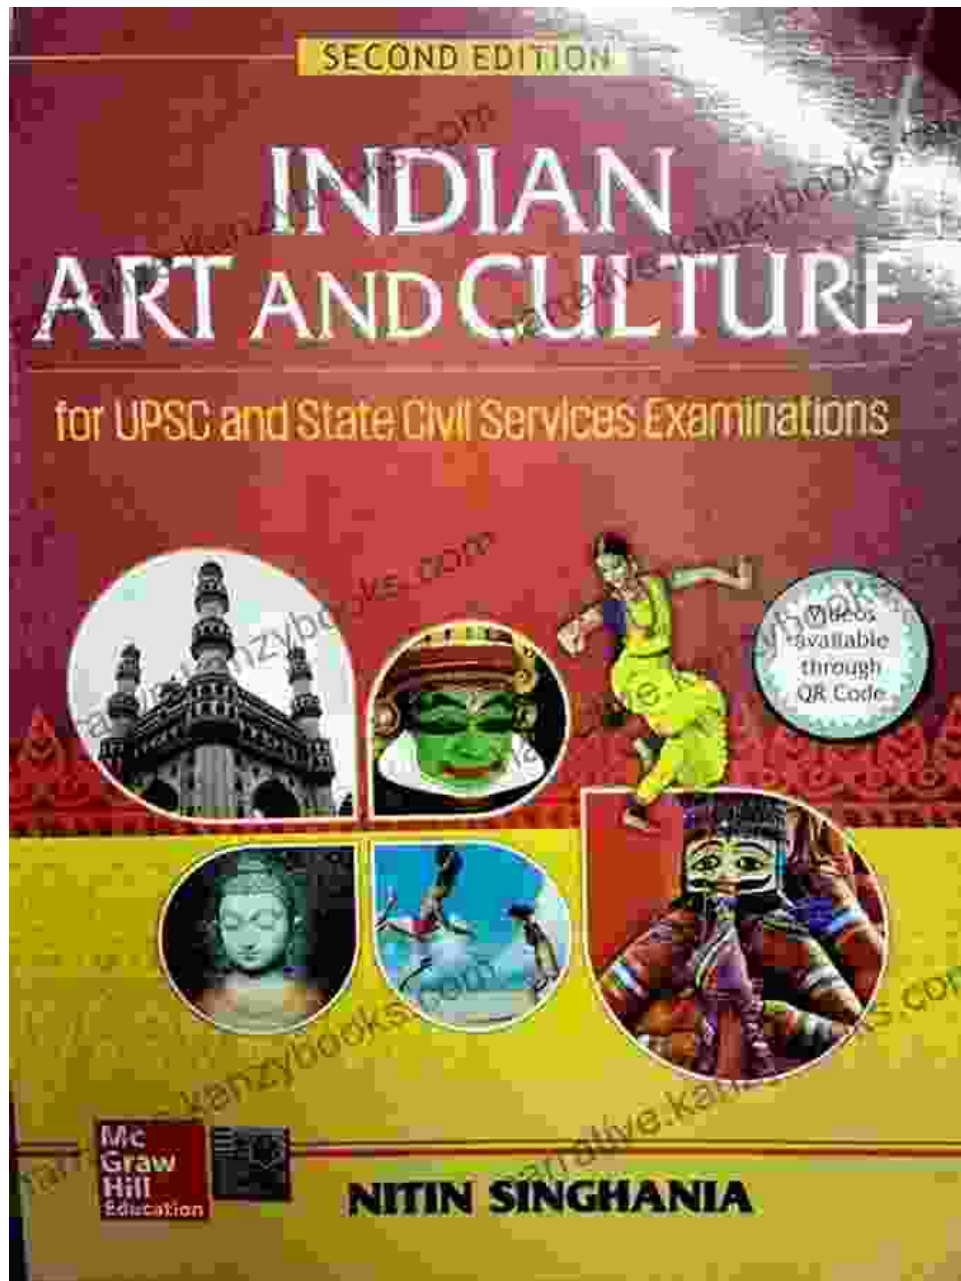

Book 4: The United States

This book takes a closer look at the United States, exploring the different regions of the country, the different states, and the unique landmarks and cultures found in each region. Your child will also learn about the history of the United States and the different ways that people live in the country.

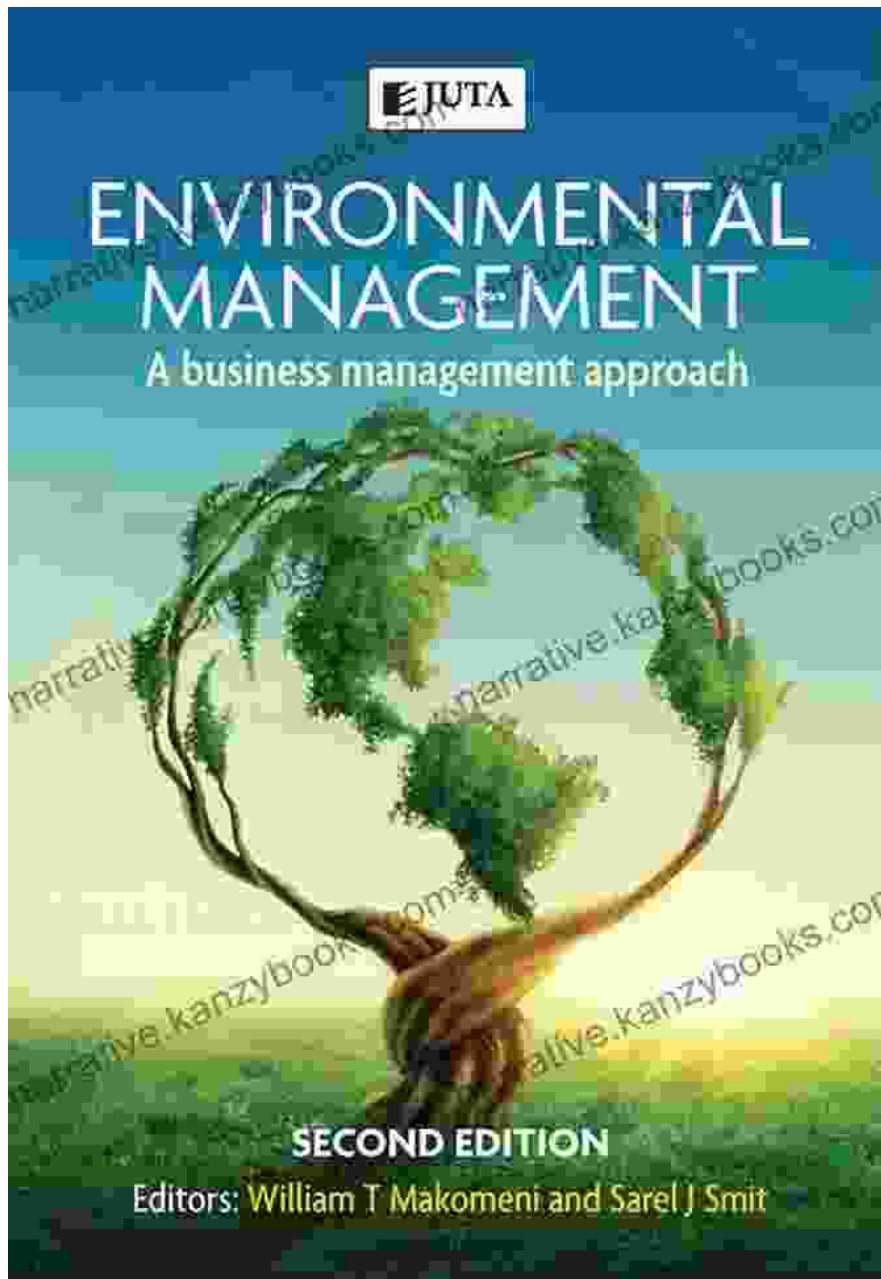

Book 5: The World's Cultures

This book introduces your child to the different cultures of the world, including the different languages, religions, and customs that people around the world practice. They'll also learn about the different ways that people live in different parts of the world and the challenges that people face in different cultures.

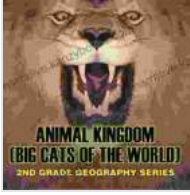

Book 6: The Environment

This book teaches your child about the importance of the environment and the different ways that people can protect the planet. They'll learn about the different types of pollution, the effects of climate change, and the different ways that people can reduce their impact on the environment.

Our 2nd Grade Geography Series is the perfect way to introduce your child to the world around them. With engaging text, colorful illustrations, and fun activities, our books will make learning about geography a breeze for your child. Free Download your copy today and start your child's journey to becoming a global citizen!
