- Assess their current cybersecurity posture
- Identify and mitigate vulnerabilities
- Develop and implement effective security controls
- Lead their teams to a culture of cybersecurity awareness and responsibility

The Security Hippy is more than just a technical manual. It is a call to action for leaders to take ownership of cybersecurity and to create a culture of security within their organizations. Dr. Barker believes that cybersecurity is not just a technical problem, but a leadership problem. She argues that leaders must be empowered to make informed decisions about cybersecurity and to create a culture where security is everyone's responsibility.

The Security Hippy is a must-read for anyone who is serious about cybersecurity. This book will empower you to take control of your security posture and to protect your organization from the ever-evolving threats of the digital age.
